The Concur desking takes a smart and practical approach to design while using a style that is both vivid and uncomplicated. It reshapes the office environment to reveal a graceful and modern personality and provides a convenient solution to the tedious, everyday bustle of the workplace.

The SIMPLE desking unites the elements of creativity and modern styling to create clean and crisp lines. The normally drab and dreary office atmosphere is transformed into comfortable and natural working environment that soothes the senses and reduces everyday work stress.

BACKBONE

The Backbone is supplied with a cable grommet as standard.

A space exists between the top and the pedestal cabinets for cables and is easily accessible without tools. The Markant Wirebasket guides the cables below the top to four power-frames.

These have each been supplied with two 230V points and two data points. Design lighting, extra sockets and an aluminium cable column for connection to the ceiling are available as additional accessories.

WORKIT

WorkKit, the office furniture system by Arik Levy, is a simple, rational and flexible solution for communicative office areas. The PIN, the central connecting element of WorkKit, opens up a large number of possibilities with a small number of parts. The screens for the middle of the desk can guide communication channels and the side screens serve to partition off large areas. The core element of WorkKit is its roof-shaped connecting piece that serves to attach, connect or define legs, cross-bars, tabletops and PC holders.

88 HUMANSCALE—INTELLIGENT ERGONOMIC

Humanscale is not just a furniture company, we're an ergonomics company that researches, designs, develops and manufactures tools and resources for the workplace. Humanscale provides and creates a healthier, more comfortable and more productive working environment.

Intelligent Ergonomic – "Civilization advances by extending the number of important operations we can perform without thinking about them." Alfred North Whitehead

Award-winning flat screen monitor arms feature effortless adjustment, perfect stability and sleek aesthetics.

Liberty Chair

Liberty chair, unlike any other mesh chair, with its tri-panel mesh back contribution, it offers perfect lumbar support for everyone, without external devices or manual adjustments.

Niels Diffrient

Freedom chair is designed to give the maximum ergonomic benefit to the user with a minimum number of manually-adjusted controls.

SITTING COMFORTABLY ISN'T SOMETHING
YOU SHOULD HAVE TO THINK ABOUT
